Production Alert: Film Permit Restrictions on Pacific Coast Highway During Week of December 2nd

Please note that pending weather conditions, film applications will not be accepted for Pacific Coast Highway between Las Posas and Deer Creek roads during the week of Monday, December 2nd. This is to allow for work designed to reduce dangers from falling rocks due to depleted vegetation from the Springs Fire in May.

During this week, the highway will be closed in both directions for 15-30 minutes at a time between 6:30 a.m. and 4:30 p.m.

The California Highway Patrol will assist with traffic, and message signs posted in the area will advise motorists.

Once again, please note that if it rains, this work may be postponed. Therefore, should you have any questions about whether this section of PCH will be open during the next few weeks, please contact Roger San Juan at Caltrans District 7 at 213-897-0282.
